

1

1. Dart Programming Basics

- Dart syntax, variables, data types
- Functions, Control Flow
- OOP in Dart, Collections
- Null safety & Exception Handling

🕒 1–2 Weeks

OUTCOME

You can write clean Dart code and understand core concepts.

2

2. Flutter Basics

- Flutter architecture
- Widgets, Material Design
- Stateless vs Stateful Widgets
- Hot Reload, Debugging

🕒 1–2 Weeks

OUTCOME

You can build simple UI using Flutter widgets.

3

3. UI & Layout

- Row, Column, Stack, Container
- ListView, GridView, Cards
- Padding, Margin, Alignment
- Responsive UI & MediaQuery

🕒 2–3 Weeks

OUTCOME

You can build beautiful and responsive user interfaces.

4

4. Navigation & Routing

- Navigator, Routes
- Named Routes
- Passing Data Between Screens
- Bottom Navigation & Drawers

🕒 1 Week

OUTCOME

You can navigate between screens like a pro.

5

5. State Management

- setState
- Provider (Recommended)
- Riverpod / Bloc (Basics)
- When to use which?

🕒 1–2 Weeks

OUTCOME

You can manage state efficiently in your apps.

6

6. APIs & Networking

- HTTP Requests (GET, POST, PUT, DELETE)
- Parsing JSON
- Error Handling
- Dio Package

🕒 1–2 Weeks

OUTCOME

You can connect your app with real-world APIs.

7

7. Local Storage

- SharedPreferences
- Hive Database
- SQLite Basics

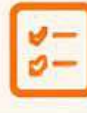

🕒 1 Week

OUTCOME

You can store and manage local data in apps.

8

8. Testing & Debugging

- Debugging in Flutter
- Unit Testing
- Widget Testing

🕒 1 Week

OUTCOME

You can test and debug your apps effectively.

9

9. Advanced Topics

- Animations
- Custom Widgets
- Clean Architecture Basics
- Dependency Injection

🕒 2–3 Weeks

OUTCOME

You can write scalable and production-ready Flutter apps.

10

10. Projects & Deployment

- Build Real-world Projects
- Firebase Integration (Auth, Firestore, Storage)
- Push Notifications
- Build & Release APK / App Store

🕒 2–3 Weeks

OUTCOME

You can publish your apps and build your portfolio.

TOOLS YOU SHOULD KNOW

VS Code

Flutter SDK

Dart

Android Studio

Git & GitHub

PROJECT IDEAS

- ✓ To-Do App
- ✓ E-commerce App
- ✓ Weather App
- ✓ Chat App
- ✓ Note Taking App

TIPS FOR SUCCESS

- ✓ Practice daily
- ✓ Build projects
- ✓ Read documentation
- ✓ Follow community
- ✓ Stay consistent
